ACCIDENTALLY KILLED.

Newt, Connell, of the East End
was accidentally killed at the
Rich Hill mill on
Saturday morning.

Mr. Connell was employed as
operator of the pug mill which in
some manner had become stop-
ped up. He threw the power off
and entered the machine to clean
it out. In some manner the
machine started and Mr. Connell
was pulled into the machine.
The lower part of his body was
badly crushed and his neck was
broken.

Mr. Connell was a pioneer citi-
zen of this city and was greatly
esteemed as a friend and neigh-
bor.

He is survived by his wife and
four daughters; Mrs. Carl Stone-
braker, Mrs. L. A. Melton of Jack-
sonville Fla., Mrs. Percy Lane
and Miss Trava Connell, beside
numerous other relatives.

The funeral was held Tuesday
afternoon at 2:00 o'clock and was
largely attended. The services
were conducted by R. Wood-
ward and interment was made
in Green Lawn cemetery.

Marvelous Discoveries.

Mark the wonderful progress
of the age. Air flights on heavy
machines, telegrams without
wires, terrible war inventions to
kill men, and that wonder of won-
ders, Dr. King's New Discovery,
to save life when threatened with
coughs, colds, grippe, asthma,
croup, bronchitis, hemorrhages,
hay fever and whooping cough or
lung trouble. For all bronchial
affections it has no equal. It re-
lieves instantly. It is the surest
cure. James M. Black, of Ashe-
ville, N. C. R. R. No. 4, writes it
cured him of an obstinate cough
after all other remedies failed. 50
cts. and \$1.00. A trial bottle free.
Guaranteed by all druggists.

DR. PRICE'S Cream Baking Powder

Its superiority is unquestioned
Its fame world-wide

Its use a protection and a guarantee
against alum food

The low-grade powders are made from "phosphate alum," or "sodium alumi-
num sulphate," which is also alum, a mineral acid, and that makes the food unhealthful.

One pound of the imitation (25c.) powders contains five ounces of alum, a
mineral poison.

Food baked with alum baking powders is found to contain a portion of the
alum unchanged.

The continued use of alum made food impairs digestion, causing dyspepsia.
The careful housewife when buying baking powder, will examine the label and take
only a brand whose label shows the powder to be made from cream of tartar.

"WELCOME THE NEW CITIZENS"

Under the above caption the
Shelbina Democrat, edited by
Hon. W. O. L. Jewett, a former
state senator and influential
Democratic leader, says:

It is reported that some mem-
bers of the Missouri legislature
will oppose any appropriation for
the Immigration Commission, for
the reason they fear more Rep-
ublicans than Democrats will be
brought into the state. We hope
this is not true. People are
coming from other states and
from foreign lands, to Missouri,
and we should welcome all good
people, no matter what their
religion or politics. If the truths
the truths of Democracy are not
powerful enough to reach and
convert those in error, then they
and we must suffer the conse-
quences. But we do not fear
these new citizens. Let them
come and help us to build up this
great commonwealth. We need
their help, and we can do them
good. We shall preach to them
true Democracy, and trust to
results.

Within the past eight years
thousands of people from Illi-
nois, Iowa and other Republican
states have come to Shelby coun-
ty, yet the vote shows that Dem-
ocracy holds its own here.
There are still, as has been the
case for many years, about two
Democrats to one Republican.
Immigration has not hurt our
party here, nor do we believe it
will. But, if it does, we shall
welcome them all the same.

The Democrats in the legisla-
ture can only injure their party
by playing politics. By disre-
garding such things and legis-
lating earnestly and honestly for
the interests of all the people of
this state, they will strengthen
the Democratic party.
